Control

- ✓ block apps on unauthorized devices
- ✓ remotely manage key creation & deletion
- ✓ create virtual keys for maintenance
- ✓ receive notifications of virtual key usage

Create happy tenants

Convenience

- ✓ access the building with your phone
- ✓ seamlessly move throughout authorized areas
- ✓ access several locations with one device
- ✓ create temporary keys for visitors
- ✓ receive notifications of virtual key usage
- ✓ talk to and buzz visitors in from anywhere

What do we offer?

Smart Access

- the Smart Access app with voice calls, remote buzz in, and **virtual keys**.
- Door Controller hardware
- a secure online Management Portal

Luxe Access

- All the above services
- a touchscreen **digital directory**, virtual keypad and remote configuration
- integration with your IP camera.

Smart Access provides real-time security and data management for the modern smart building.

How do you install it?

It's plug & play - our trusted partners will install the door controller to your electric strike door and hook it up to your Internet cable.
